EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Catherine Bishop on June 8, 2005.

The application has been amended as follows:

In the claims:

Amend the claims as follows:

Cancel claims 99-108.

1. A liquid sample dispensing system, comprising: a holder; a first pin coupled to the holder and having a first tip; and a second pin coupled to the holder and having a second tip spaced a predetermined separation distance D from the first tip, wherein the first and second pins are movable relative to each other; and at least one a sensor for measuring the physical properties of a liquid sample held between the first tip and the second tip; wherein said at least one sensor is provided on at least one of said first and second pins.

4. The liquid sample dispensing system of claim 1, ~~further comprising a sensor for sensing~~ wherein said at least one sensor also senses the separation distance between the first tip and the second tip.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the temperature

sensor for detecting the temperature of the silicon bar must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

3. The drawings filed on December 21, 2001 are acceptable subject to correction of the informalities indicated on the attached "Notice of Draftsperson's Patent Drawing Review," PTO-948. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

Allowable Subject Matter

4. Claims 1-4, 6-7, 65-98 are allowed.
5. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor fairly suggest a liquid sample dispensing system, comprising: a holder; a first pin coupled to the holder and having a first tip; and a second pin coupled to the holder and having a second tip spaced a predetermined separation distance D from the first tip, wherein the first and second pins are movable relative to each other; and at least one sensor for measuring the physical properties of a liquid sample held between the first tip and the second tip; wherein said at least one sensor is provided on at least one of said first and second pins.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian R. Gordon whose telephone number is 571-272-1258. The examiner can normally be reached on M-F, with 2nd and 4th F off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jill Warden can be reached on 571-272-1267. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
